The Complete DeFi Ecosystem on Polygon

Whitepaper Follow us   

**Trusted By**  **Polygon**

**The More You Swap, The Creme-ier It Gets**  
Birdswap is an exchange protocol AMM. CremeSwap offers various services that support decentralized trading on the Polygon Main Network and solve the liquidity problem of other projects on Polygon.

**1 Liquidity**  
Birdswap solves the problem of liquidity of Polygon by bridging from the Ethereum Chain and taking advantage of the massive liquidity of Polygon's native token MATIC.

**2 Honesty**  
Birdswap is built by three well-established decentralized finance projects: Bancor, 100XCOIN, and ESC Army. This alliance ensures that CremeSwap is transparent and honest.

**3 Industry**  
Birdswap offers a broad range of DeFi services that will surely satisfy the demands of any user on Polygon/NFTC.

**4 Community**  
Birdswap takes a community-centered approach. Governance allows the community to decide how the ecosystem will develop in the future.

## PRODUCTS

- 
- Swapping/Trading**  
CremeSwap offers a broad range of DeFi services that will surely satisfy the demands of any user on Polygon/MATIC.
- Liquidity Pools**  
An exchange can only function with sufficient liquidity. Liquidity providers get LP tokens that guarantee many benefits, including trading fee discount and access to a broad range of Polygon Matic products.
- Staking Pools**  
Stake SCPIE and earn interest while you sleep. Great APR, low risk.
- Yield Farming**  
The LP tokens that users have received by providing liquidity can be staked in the farm to earn more SCPIE.
- Governance**  
Governance allows the community to decide how CremeSwap will develop in the future.
- Lottery**  
Play lottery and win SCPIE.
- MATIC Price Prediction**  
Guess the price of MATICUSDT of the day to earn rewards.
